the new land. Put on VR glasses and take a flight through the port of 2066. Or schedule a round trip on a boat and experience yourself what it is like when cranes, ships and ports are big, bigger, biggest. Discover the port of the future in FutureLand.

### Unique location

Enjoy the fantastic views from the restaurant or, when the sun is shining, from the terrace. New land and a new port have come into being at our own front door. Automatic cranes are now daily unloading containers with our goods from the largest sea-going vessels.

### Presentations, exhibitions and theme days

Our information officers provide presentations for groups in the auditorium. The Yangtzezaal presents a variety of exhibits throughout the year. FutureLand organises monthly theme days with free lectures and excursions.

### Practical information

Entrance to FutureLand is free. A presentation, free of charge, starts each Sunday at 1.15 p.m.

### Would you like to come with a group?

Why not book a guided tour in that case? You will be welcomed in the auditorium with a presentation and introductory film. All aspects of Maasvlakte 2 or the port of Rotterdam are explained professionally, according to the wishes of the group. Schools are of course also warmly welcomed. Come and take an interactive journey sometime. Please contact us for more information or for price details, or visit [futureland.nl](http://futureland.nl).
