

A DEDICATED SITE FOR ELECTROLYSIS

H-vision

Production of low-carbon hydrogen, mainly from refinery gases, combined with CCS, to decarbonize high temperature processes. First plant in 2027.

CONVERSION PARK

PROJECT/COMPANY	ELECTROLYSER CAPACITY	FID	OPERATIONAL
A. H2-Fifty (bp & HyCC)	250 MW	2023	2025
B. Holland Hydrogen 1 (Shell)	200 MW	Q2 2022	2024
C. Air Liquide & Vattenfall	200 MW	2023	2025
D. X	200 MW	2024	2026
Uniper	100-500 MW	2023	2025-2030
